

Syada Nusrat Nahar

AI Intern · FlyRank

B.Sc. in CSE, North South University · 1st year, 3rd Semester

Email : syadanusratnahr@gmail.com · Phone : 01828-367614 · Address : Dhaka, Bangladesh · [Linkedin](#)

AI Intern | Computer Science Student focusing on AI Fluency & Software Development

ABOUT ME

First-year CSE student at North South University with a genuine passion for artificial intelligence, software development, and the intersection of technology with real-world impact. Selected in the top ~11% of nearly 1,300 NSU applicants for the Cybersecurity Training Program, and a 2nd Runners-Up at the IEEE NSU IAS SBC FLOW Technical Poster Competition as a first-year undergraduate. Over the next 12 months I aim to deepen my practical AI skills, contribute meaningfully to FlyRank's product and research, and ship work I'm proud of.

EDUCATION

B.Sc. in Computer Science & Engineering	2025 – Present
<i>North South University, Dhaka, Bangladesh · 1st Year, 3rd Semester</i>	
Coursework: Programming Language (C), Discrete Mathematics, English & Communication Skills.	
Higher Secondary Certificate (HSC)	2023
<i>BAF Shaheen College, Dhaka, Bangladesh · GPA: 5.00 / 5.00</i>	
Secondary School Certificate (SSC)	2021
<i>Shaheed Police Smrity School and College, Dhaka, Bangladesh · GPA: 5.00 / 5.00</i>	

EXPERIENCE & LEADERSHIP

AI Intern	2026 – Present
<i>FlyRank · Remote</i>	
- Accepted into the FlyRank AI Internship programme — actively onboarding through Kickoff Prep and community engagement. - Developing AI fluency skills aligned with the FlyRank curriculum and mentor-guided learning track.	

2nd Runners-Up — IEEE Technical Poster Competition

2026

IEEE NSU IAS SBC FLOW · North South University

- Presented a research poster on an AI-integrated Solar-Wind-EV hybrid energy framework using LSTM forecasting models and V2G battery storage to IEEE judges — as a 1st-year undergraduate competing against senior students.
- Built research communication, data synthesis, and presentation-under-pressure skills directly applicable to AI project work.

Active Member

2025 – Present

IEEE NSU IAS SBC (Industry Applications Society Student Branch Chapter)

- Participate in technical events, collaborative projects, and campus AI/tech community initiatives.
- Contributes to event coordination, team communication, and knowledge-sharing within the chapter.

PROJECTS

AI-Integrated Solar-Wind-EV Energy Framework

2026

IEEE NSU IAS SBC Research Poster · Co-authored

- Designed a hybrid renewable energy system combining solar, wind, and EV battery storage (V2G) with LSTM-based load forecasting to optimise grid efficiency.
- Presented findings to academic judges at the FLOW Technical Poster Competition.

Typing Simulator (CS50x Final Project)

2026

Harvard University (Online) · Built in C

- Built a multi-feature terminal typing game with user authentication, a leaderboard, and an adaptive difficulty engine — demonstrating self-driven learning and ability to deliver under deadlines.

CORE SKILLS

Generative AI & Prompting	Machine Learning Fundamentals	Python (Learning)
C Programming	Data Analysis	AI Fluency
Research & Communication	Content Writing	Team Collaboration

TOOLS & PLATFORMS

Google Cloud	Microsoft Azure	IBM SkillsBuild
GitHub / VS Code	Google Workspace	MS Office Suite
Canva	LinkedIn	Vertex AI

CERTIFICATIONS & TRAINING

Certification/ Training	Issuer	Year
NSU Cybersecurity Training — Course 1 & 2	NSU Cybercenter · Google.org	2026
CS50x: Introduction to Computer Science	Harvard University	2026
Generative AI & Agents	Microsoft Learn	2026
Prompt Design in Vertex AI (Skill Badge)	Google Cloud	2026
Cybersecurity Basics	IBM SkillsBuild	2026
Cloud Computing Fundamentals	Microsoft Learn	2026
Professional Networking for Career Growth	HP LIFE	2026

KEY ACHIEVEMENTS

- ▶ Placed 2nd Runners-Up at IEEE NSU IAS SBC FLOW Technical Poster Competition — competing as a 1st-year undergraduate against senior students.
- ▶ Selected into NSU Cybersecurity Training (top ~11% of ~1,300 applicants).
- ▶ Perfect 5.00/5.00 GPA in both SSC and HSC — Bangladesh's highest academic tier.
- ▶ Earned 6 certifications from Harvard, Google, Microsoft, IBM, and HP LIFE within a single academic year.
- ▶ Active community builder: IEEE member, and internship program participant simultaneously.

HOBBIES & INTERESTS

Listening to music · Watching movies · Exploring emerging tech · Reading about AI research · Campus community building
